

In light of the concerns of many parents who believe it is unsafe to let children play outside with traffic implications, violence and crime on the streets, do attendees believe government funding should be focused more on activities to keep children fit and healthy in a safe, secure and challenging indoor play area?

1. Funding should only be for outside projects i.e. parks
2. A mix of outdoor and indoor
3. Indoor only
4. Funding should not be channelled into keeping children fit and healthy
